

Co-funded by
the European Union

Module 4

Bringing Solutions to Life

Prototyping, Evaluating, and Implementing

Module Objectives

Transforming ideas into solutions

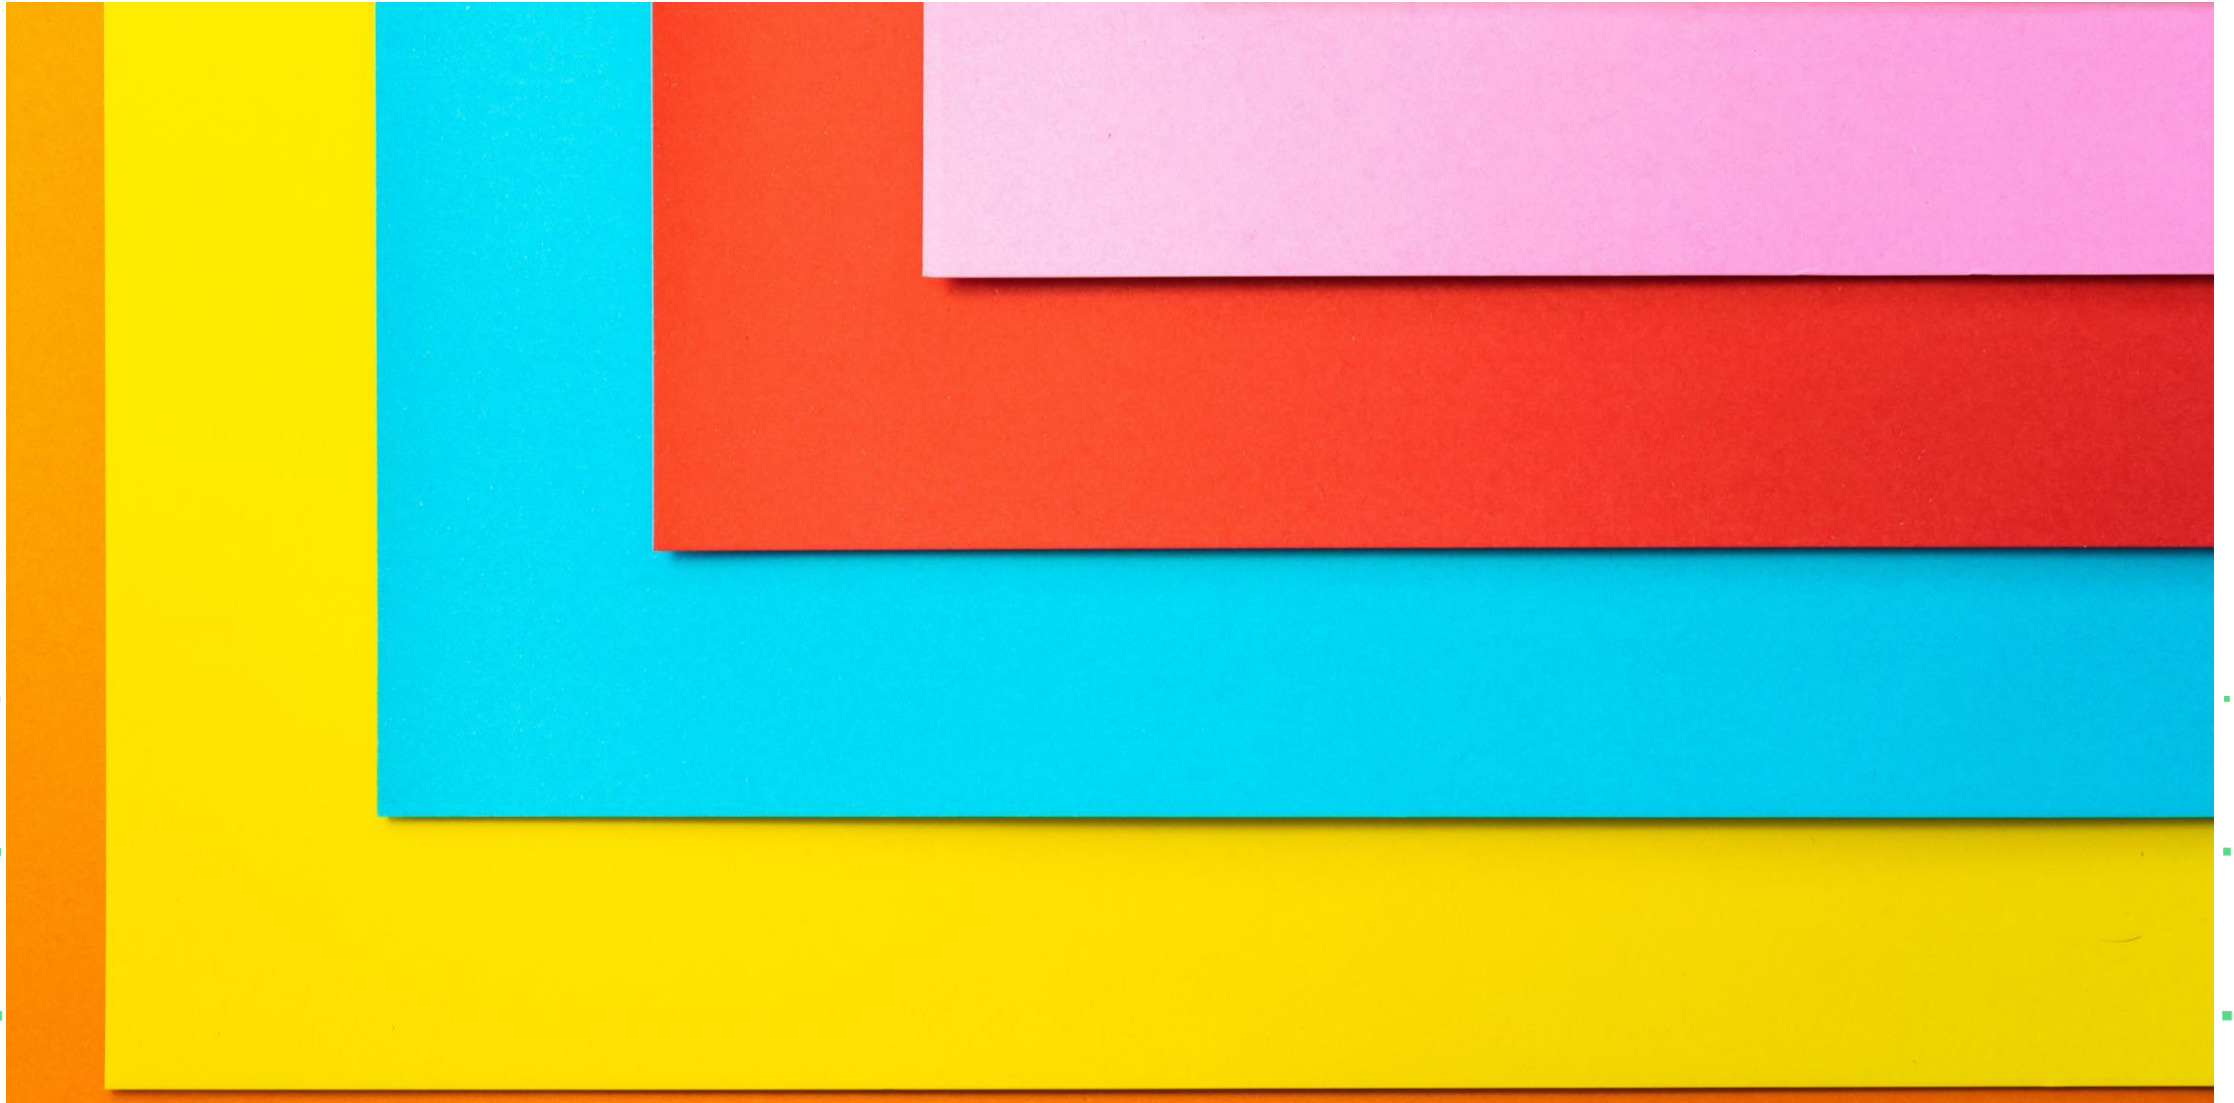

Creating low-fidelity prototypes

Gathering and incorporating feedback/feedforward

Applying an iterative mindset

Scaling solutions and measuring impact

Creating Low-Fidelity Models

Prototyping Activities

Gathering Feedback and Feedforward

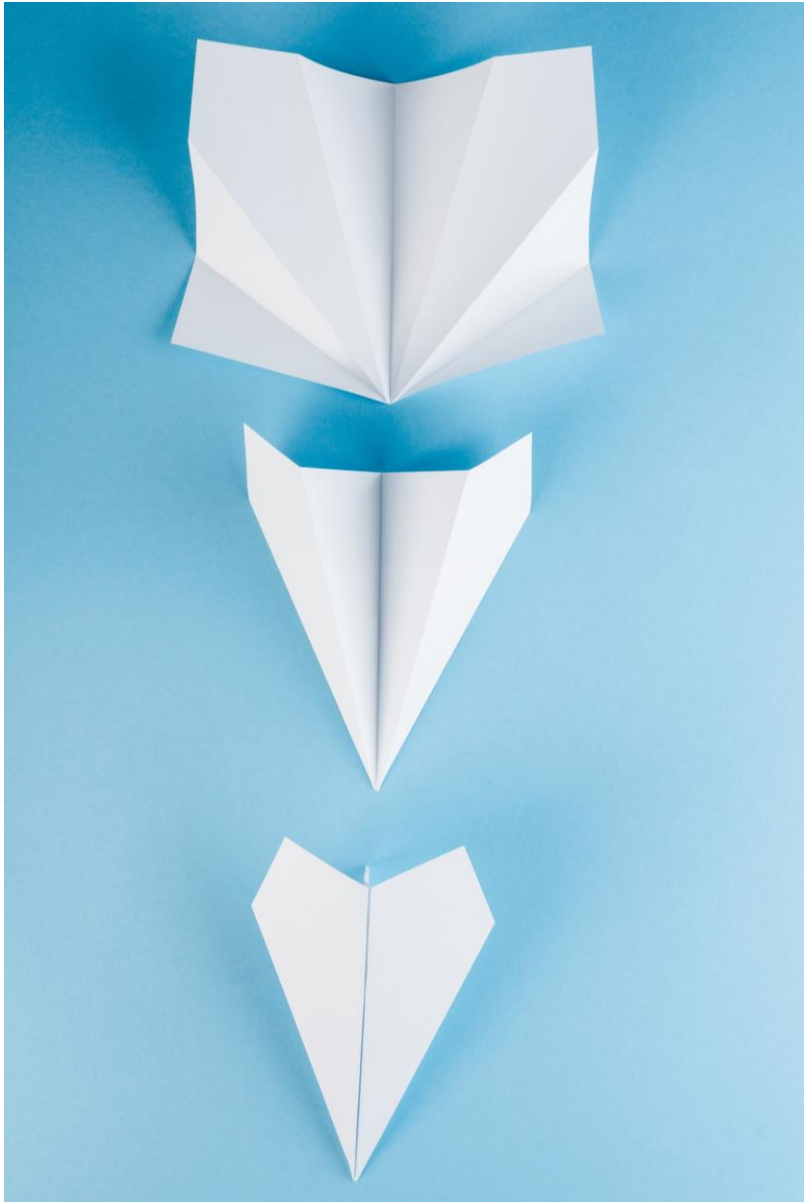

Example

Super Soaker

Leveraging Constructive Criticism

From Prototype to Market

Market Analysis

Scaling

Measuring Impact

Regulatory Compliance and Standards
